

## EXTENSION COURSES: **Photography**

### CREATIVE EXPERTISE FOR PHOTOGRAPHERS

Enquiries to [extension@uwa.edu.au](mailto:extension@uwa.edu.au)

Theory: Sat 9.30am-4.30pm Practical: Sun 1.00-5.00 pm Review: Thu 6.30-9.30pm  
– see website for venue and dates

If you understand the basics to photography but wish to explore the 'art of seeing', then this course is for you. Learn to develop your visual literacy, overcoming visual biases to be able to see beyond what's there. Awaken your creative potential and introduce the 'wow' factor into your photography. Suitable for digital and film cameras.

#### REQUIREMENTS

This course assumes you are already familiar with the basics of photography

#### COURSE CONTENT

- A new way to view the world - old and new visual paradigms
- What is creativity and how we can develop our potential
- Understanding your equipment (film and digital) to get the photographic style you want
- Creative barriers to seeing and how to overcome them
- Effective composition for consistently good images
- Creativity and the quality of light
- How can I start my creative journey?

#### NOTES FOR PARTICIPANTS

If you have a digital camera, you can provide some jpeg images for feedback on review night. If you have a film camera, an option is to use slide film (if your camera has manual mode available - you will be shown how to use manual mode during the course) or print film if you have a point-and-shoot with auto mode only.

It is suggested you bring along a 36exposure 100 or 200 ISO film for film cameras.

#### 5 FOR 4 OFFER

Our Special 5 for 4 offer applies to this course. If you book four people on the course you get a fifth place free. Just select the 5 for 4 Offer option when enrolling. Please advise us of all names of the members of your group by fax 6488 1066 or email [extension@uwa.edu.au](mailto:extension@uwa.edu.au)
